

About Little Fighters by RAY.AN

Grounded, rocking, profound: that's how you can describe not only singer RAY.AN herself, but also her new song "Little Fighters".

The striking voice of rock singer RAY.AN sits in the center of the stomping rhythm in connection with driving bass lines, which are rounded off by strong guitar riffs and slide guitars and powerful choirs. The verses are rather solemn, but the song opens up a real firework in the refrains, which is immediately carried away by the catchy melody. Another catchy tune that gets every leg moving.

The powerful-voiced singer gets straight to the heart of the matter with profound lyrics. Her new single "Little Fighters" goes deep, awakens memories and emotions: as a reflection of one's own self - as an impulse for rethinking, for a change of perspective. After all, everyone is ultimately responsible for their own happiness. What shouldn't be neglected in the quite emotional text is the rock & roll in RAY.AN's music, which doesn't make the serious matter seem depressing, but gets under your skin in a memorable way.
